Attached is your briefing book for the SIG(I) meeting on ~~Monday, 27 July~~. It is identical to the book prepared for your 24 July NFIC meeting with the following exceptions:

--The ICS removed two papers (P-989 and support to operational forces) that they judged inappropriate for discussion at the Deputy Secretary level.

--They added one paper on foreign counterintelligence which will give us an opportunity to make some points to OMB and Justice.

--The last tab is a memorandum that you requested from the NRO on cost growth.

The talking points are identical in substance to those prepared for your NFIC meeting but they are directed to consumers rather than to the IC.
